MUZZLELOADER

The only legal muzzleloading hunting device to take or attempt to take a deer is a single or double barreled muzzleloading rifle of at least .45 caliber shooting a single projectile that is incapable of being loaded from the breech end.

Muzzleloaders: a single or double barreled muzzleloading firearm of at least .45 caliber shooting a single projectile through a barrel of at least sixteen inches in length; must be percussion cap (a shotgun primer is a legal percussion cap), wheellock, matchlock or flint type ignitions only, except the Connecticut Valley Arms (CVA) electronic ignition shall be legal to use and only use black powder or a "black powder substitute" such as Pyrodex. Modern smokeless powders (nitrocellulose-based) are an approved blackpowder substitute only in muzzleloading firearms that are specifically designed for their use.

All counties are open to muzzleloader-only deer hunting except Cook, DuPage, Lake and that portion of Kane county east of State Route 47.

SPECIAL HUNT AREAS – Special hunts held on federal or state lands are regulated by the agency which manages the property. Some of these areas are included in the lottery (see list below). If you wish to apply for a permit to hunt one of these areas, enter the abbreviated name of the area on your application. Special Hunt area permits are not valid anywhere else in the county. County permits are not valid for the Special Hunt areas listed on this application. ³ An additional site hunting pass is required at the site: wheelchair accessible blinds are available by reservation.

⁴ Hunting will begin the first day at legal shooting time and at 10:30 am on all other days of the season.

1 APPLICATION DATES

FIRST LOTTERY – Applications from Illinois residents will be accepted from the date upon which they become available through April 29.

SECOND LOTTERY – Applicants not receiving any permits or not applying in the first lottery and non-residents may apply for an unfilled county quota permit (and a Bonus Antlerless-Only permit, if available) which will be allocated in a second lottery from applications received through August 15. Illinois residents will be given preference for permits allocated in the Second Lottery Drawing. A list of unfilled counties will be announced approximately July 14.

RANDOM DAILY DRAWINGS – Anyone may apply for any number of remaining permits issued from the first random daily drawing from applications received prior to and including September 13. Random daily drawings will be held up to October 3. A random daily drawing means all applications from one day are randomly processed before applications from the next day are randomly processed.

OVER THE COUNTER PERMIT SALES - Permits remaining after the Random Daily Drawings will be available over-the-counter from license vendors beginning October 18 on a first-come, first-served basis. Permits will be sold until quotas are exhausted, or until the close of the muzzleloader deer season, whichever occurs first. Persons may purchase one or more permits during this period, subject to availability.

2 PERMIT TYPE(S) – You must check one box only.

If you check **Box A**, you will be processed for one Either-Sex permit.

If you check **Box B**, you will be processed for one Either-Sex permit and if successful, will then be processed in an additional drawing for one Bonus Antlerless-Only permit. **Box C**, these Antlerless-Only permits are issued only in random daily drawings and are available regardless of whether applicants already possess an either-sex permit.

These counties do not have any Antlerless-Only permits available: Ford, Kankakee, Kendall and Pope.

10 Up to six individuals may apply to hunt as a group. All individuals in the group must preselect a group leader and each application for the group must have sections 1, 3, 4 & 10 filled out identically, indicating the same lottery, county or special hunt area choice, and same group leader's name and date of birth. Since Illinois residents are given preference for permits allocated in the Second Lottery Drawing, groups containing both resident and non-resident applicants will be treated as non-residents.

⁵ Hunters must take an antlerless deer on the site during the current year firearm or muzzleloader season before they can purchase an either-sex permit.

⁶ For Corps of Engineers managed lands not managed by IDNR, contact COE, Lake Shelbyville office for specific deer hunting policy.

⁷ Ash Swale Waterfowl Rest Area closed to deer hunting during waterfowl hunting seasons.

⁸ Hunters must take an antlerless deer on the site during this hunt before they are issued an either-sex permit by site staff.
